COMMUNITY FOUNDATION
For SOUTHEASTERN MICHIGAN

Made possible through financial support provided by
The Community Foundation for Southeastern Michigan's
GreenWays Initiative

The Greening of Detroit

Detroit City Council
City Planning Commission

Detroit Planning & Development Department

Greenway System Legend:

A greenway network is comprised of three basic parts: links, hubs and sites.

Greenway Links

Links are the heart of the greenway system. They are the linear connections for people.

Type of Link:

- Off-Road Corridors
- Roadway Based Corridors (Bike Lanes & Sidewalks or Sidepaths)

Status of Link:

- Existing or Nearing Completion
- Under Development
- Detailed Design / Study Underway
- Planned (Included in a Report)
- Preliminary Concept

Greenway Hubs

Hubs are the anchors of the system, such as large parks and major cultural attractions.

- Regional Hubs

Greenway Sites

Sites are smaller features than hubs that serve as points of interest and frequent destinations.

- Schools
- Parks and Open Space

Legend for Other Symbols

- City, Village and Township Boundari
- Water
- School Properties
- Selected Large Private Properites
- Freeway
- Primary Road
- Local Road
- Railroad
- Power Transmission Line - Easemen
- Power Transmission Line - ITC Own

NORTH

0 0.5 1
Miles

A mile takes between 15 and 20 minutes to walk and 4 to 8 minutes to bike not accounting for delays.
